## Utah Women's Networking Group Online Membership Directory

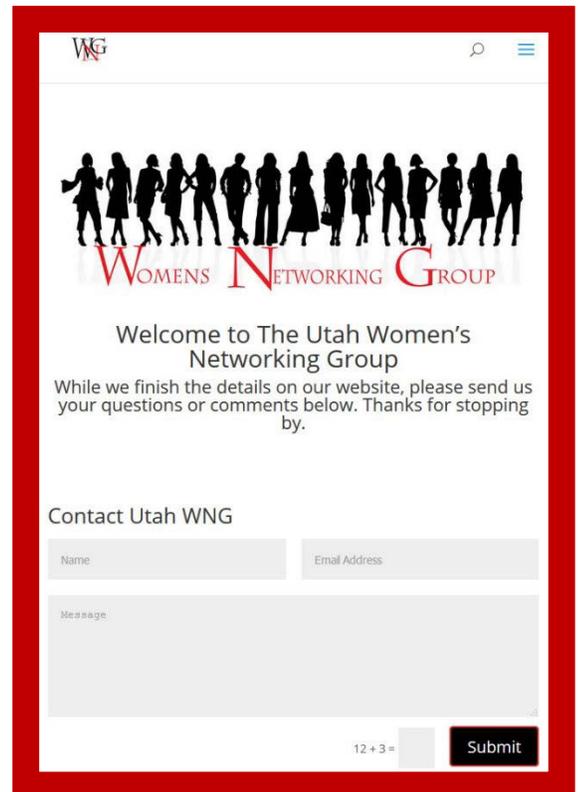

This how-to guide is provided to our members to assist in the setup of their business listing profiles on our website. For members who wish to be in the directory without listing a business, they can just use their own name and contact information instead. Please read and follow the steps in the guide before sending questions or requesting assistance.

Most members will automatically claim their business listing during the setup of a new listing, but administrators can create listings and allow members to claim later if needed. Claiming a listing allows you to make edits and changes to it later. The listing will appear in the directory while membership is current. Memberships that lapse will result in listings being removed from the directory. Please be sure to act on notification messages for renewals in a timely manner.

Please contact our assistant or ambassadors if you have any questions.

You are responsible for keeping your listing up to date and making any changes to contact details as needed. Different levels of membership will control what you are allowed to list. Full Business members can upload a logo and a set of images to better feature themselves or their businesses. Be sure to optimize your images for web viewing (570 x 380 pixels is best) so they will look good in the directory previews. You can see the [Example Full Listing](#) for example images that work well in the directory.
